1. Tournament Overview

MECS Regionals are weekend Rocket League tournaments operated by Mathatised Esports. Every month, a regional tournament is held in the Middle East, APAC and EU, so players around the world get regular, meaningful competition.

MECS Regionals give players a professionally organised competitive platform where they can grow, showcase their skills, compete against other talented players, get noticed, and build recognition and a name for themselves within the community. Every match is livestreamed with casting, and standout moments are turned into highlights and shared across Mathatised Esports' channels.

Each MECS Regional is a separate, independent competition and crowns its own champion.

At a glance

Tournament type	Weekly regional tournaments
Frequency	Every month: Middle East, APAC and EU
Duration	2 days: Saturday and Sunday
Teams	8 teams per tournament
Team size	2v2: two-player main lineup, plus one optional substitute
Format	Double elimination
Series lengths	**BO3:** Upper Quarterfinals, Upper Semifinals, Lower Round 1, Lower Quarterfinal, Lower Semifinal **BO5:** Upper Final, Lower Final **BO7:** Grand Final, with a bracket reset
Eligibility	No rank requirement. Combined peak MMR of 2,800 for the main lineup (50 MMR tolerance)
Title	Every tournament crowns a champion, e.g. MECS APAC I Champion
Broadcast	Every match livestreamed with casting and commentary
Regions	Middle East, APAC and EU, with more regions planned

2. Monthly Schedule & Servers

Every month follows the same pattern:

1st weekend
MECS Middle East Regional

↓

2nd weekend
MECS APAC Regional

↓

3rd weekend
MECS EU Regional

↓

Last weekend of the month
MECS Middle East 1v1 Showdown, a separate monthly 1v1 event

In a month with five weekends, the remaining weekend is announced separately. More regions are planned and will be added when announced. The dates of each tournament are published on the Mathatised Esports website and announced in the official Discord server. Details of the 1v1 Showdown are announced in Discord.

Default servers

REGION	DEFAULT SERVER
Middle East	ME4
APAC	Asia SE Maritime
EU	Europe

> **Playing on a different server.** A team may request to play on a different server or server region. The Administrator asks the opposing team, and the change is allowed only when both teams agree and an authorised Tournament Administrator approves it before the match is played (Rules & Regulations, Section 4.6).

If a match is started on the wrong server, it is recreated on the correct server with new credentials (Section 4.2).

3. Registration & Rosters

How to register

- Registration for each MECS Regional is completed through the official Mathatised Esports Discord registration process.
- Each team designates one registered player as its Captain / Point of Contact (POC), who submits the team's information.
- For every registered player, the POC submits their **Discord ID**, **Epic Games ID** and **Rocket League Tracker** profile link (Section 3.3).
- Registration is reviewed for eligibility. A team is officially confirmed once it is added to the Registered channel in Discord (Section 3.12).
- Registration windows and deadlines for each tournament are announced in Discord.

Roster

Main lineup	Two (2) players
Substitute	One (1) optional substitute
Captain / POC	One registered player, the team's main contact with the admins

- Roster changes are allowed until registration closes. After that, the roster is locked except where the Rules allow otherwise (Section 3.7).
- A registered substitute may replace a starter between games, or during a disconnect pause (Sections 3.7 and 4.7). Teams should notify an Administrator before the match.
- A player may only be registered to one team in the same tournament (Section 3.8).

4. Eligibility: Combined Peak MMR

MECS Regionals have **no minimum rank requirement**. Players of any rank may participate, provided the team meets the combined MMR requirement (Section 3.13).

- The two players in a team's main lineup must have a **combined peak MMR of at least 2,800**.
- A **tolerance of 50 MMR** applies: a main lineup with a combined peak MMR of **2,750 or higher** meets the requirement.
- A player's peak MMR is their **highest peak MMR across all formats**, including 1v1, 2v2 and 3v3.
- The team's combined peak MMR is the sum of the two main-lineup players' peak MMR.
- The **substitute does not count** towards the combined MMR requirement.
- Mathatised may verify MMR and account history (Sections 3.2, 3.3 and 3.10).

5. Double-Elimination Bracket

Each MECS Regional is played as an eight-team double-elimination bracket. A team is eliminated after its second series loss: the first loss sends a team from the upper bracket to the lower bracket, and a loss in the lower bracket ends its tournament.

Bracket positions are determined by the Tournament Administration and announced before the tournament (Section 2.3).

How teams move through the bracket

ROUND	SERIES	WINNERS	LOSERS
Upper Quarterfinals	4	Upper Semifinals	Lower Round 1
Upper Semifinals	2	Upper Final	Lower Quarterfinal
Lower Round 1	2	Lower Quarterfinal	Eliminated
Lower Quarterfinal	2	Lower Semifinal	Eliminated
Lower Semifinal	1	Lower Final	Eliminated
Upper Final	1	Grand Final	Lower Final
Lower Final	1	Grand Final	Eliminated
Grand Final	1–2	Champion	Runner-up

Grand Final and bracket reset. The Grand Final is a Best-of-7 between the winner of the Upper Final and the winner of the Lower Final.

The Upper Final winner arrives undefeated, while the Lower Final winner already has one loss. If the Lower Final winner wins the first Grand Final series, both teams have one loss each, so the **bracket resets**: a second Best-of-7 is played to decide the champion. This keeps the double-elimination rule fair, as every team must lose twice to be eliminated.

6. Weekend Schedule

Every MECS Regional is completed over one weekend. Match times for each tournament are announced in the official Discord server.

SATURDAY	FORMAT
Upper Quarterfinals	BO3
Upper Semifinals	BO3
Lower Round 1	BO3
Lower Quarterfinal	BO3

SUNDAY	FORMAT
Lower Semifinal	BO3
Upper Final	BO5
Lower Final	BO5
Grand Final (+ bracket reset)	BO7

Saturday covers the opening rounds of both brackets (ten series). Sunday completes the tournament, finishing with the Grand Final and, if the Lower Final winner takes the first series, a bracket reset.

7. Match Settings

Unless a tournament-specific rule states otherwise, matches use standard Rocket League competitive settings: Standard mode, 5-minute games, no bots and no mutators, in private matches hosted by the Match Administrator on a standard competitive arena (Sections 4.1 and 4.2).

Disconnects, pauses and team timeouts are handled under Sections 4.7 and 4.8 of the Rules & Regulations.

8. Champion Title

The winners of each tournament are crowned with that tournament's title, for example **MECS APAC I Champion**, **MECS EU I Champion** or **MECS Middle East I Champion**.

9. Broadcast & Content

- Every MECS Regionals match is **livestreamed with casting and commentary** on Mathatised Esports' official platforms: YouTube, Twitch and Kick.
- Standout moments are turned into **highlights and edits** shared on YouTube Shorts, TikTok, Instagram and Facebook, so performances reach an audience beyond the stream.
- By taking part, players and teams acknowledge that their matches may be broadcast, recorded and used in Mathatised Esports content (Section 10).

10. Tournament Progression Summary

Registration

Through the official Discord · 2 players + 1 optional substitute

↓

Eligibility check

Combined peak MMR of 2,800 (2,750 with tolerance)

↓

Saturday

Upper Quarterfinals · Upper Semifinals · Lower Round 1 · Lower Quarterfinal · all BO3

↓

Sunday

Lower Semifinal (BO3) · Upper Final (BO5) · Lower Final (BO5)

↓

Grand Final

BO7 · Upper Final winner vs Lower Final winner · bracket reset if the Lower Final winner wins the first series

↓

MECS Regional Champion

e.g. MECS APAC I Champion

11. Administrative Notice

The Mathatised Esports Rules & Regulations apply to every MECS Regional. Where this document and a tournament-specific announcement differ, the tournament-specific announcement applies to that tournament.

> The schedule, match structure and format outlined in this document represent the intended MECS Regionals format. The Tournament Administration reserves the right to make reasonable adjustments when necessary due to scheduling requirements, operational circumstances, technical issues, unforeseen events, competitive integrity concerns or other circumstances that may affect the successful operation of the competition. Any significant changes will be communicated to participating teams as soon as reasonably possible.

Support, disputes and reports are handled through the official Mathatised Esports Discord ticket system (Sections 5.3 and 6.1).
