1. Tournament Overview

The Mathatised Esports Championship Series (MECS) is a competitive esports competition operated by Mathatised Esports. MECS is designed to provide players with a professional platform to compete, demonstrate their ability, gain recognition, and compete alongside or against high-level players.

The tournament will feature 24 teams, competing over a four-weekend competition period, and will ultimately determine one MECS Champion. Registration opens ahead of the competition period.

MECS Champion

All official match days will take place on Saturdays and Sundays.

2. Overall Timeline

The MECS competition period runs for four consecutive weekends, structured across three phases: the Group Stage (1 weekend), the Qualifiers (1 weekend), and the Championship Bracket (2 weekends). Registration opens ahead of the competition period.

Registration (Pre-Competition)

Registration window: 1 week (opens ahead of the competition period)

Registration will open before the competition period begins and remain open for one week. During this window, eligible teams may register for MECS. Once registration closes, teams will be reviewed and confirmed before the group-stage draw and seeding process. To be eligible, all players must hold a competitive rank of Champion or above.

3. Group Stage

Duration: 1 weekend

The 24 participating teams will be divided into 8 groups of 3 teams:

- Group A
- Group B
- Group C
- Group D
- Group E
- Group F
- Group G
- Group H

Each group will operate as a single round-robin. Every team plays each other team in its group once, meaning each team plays two group-stage series. All group-stage series will be Best-of-3 (BO3).

Group Stage — Weekend Schedule

Saturday

- Groups A and B matches
- Groups C and D matches

Sunday

- Groups E and F matches
- Groups G and H matches

All group-stage matches are BO3.

4. Group Stage Qualification & Elimination

At the conclusion of the Group Stage, each group will have a ranking from 1st through 3rd. The results of each group determine the tournament's next stage.

1st Place — Direct Qualification

The team finishing 1st in each group will qualify directly for the 12-team Championship Bracket. This produces 8 Group Winners, who are directly qualified for the Championship Bracket and will skip the Qualifiers entirely, proceeding straight to the final double-elimination stage.

2nd Place — Qualifiers

The team finishing 2nd in each group will advance to the Qualifiers. This produces 8 teams entering the Qualifiers, from which 4 teams will advance, competing for the remaining four places in the 12-team Championship Bracket.

3rd Place — Elimination

The team finishing 3rd in each group will be eliminated from MECS. The 8 third-place teams will not advance to the Qualifiers or the Championship Bracket.

5. Qualifiers

Duration: 1 weekend

The Qualifiers will take place across one weekend. The 8 teams advancing from the Group Stage (the 2nd-place finishers) will compete for the remaining four places in the 12-team Championship Bracket.

The 8 teams will be divided into two groups of four teams: Qualifier Group A and Qualifier Group B.

Swiss Format

Each group will compete in a Swiss-format stage. Each of the four teams in a group will play each of the other three teams in that group, accumulating points throughout the round based on wins and losses. Group standings are determined by the points accumulated. All Qualifiers series will be Best-of-3 (BO3).

Qualifiers — Weekend Schedule

Qualifier Group A will play on Saturday and Qualifier Group B will play on Sunday, so both groups are completed within the same weekend.

Qualifiers Outcome

- The top 2 teams from each group (4 teams in total) advance to the Championship Bracket
- The bottom 2 teams from each group (4 teams in total) are eliminated

6. Championship Bracket

Duration: 2 weekends

Following the Group Stage and the Qualifiers, the final 12 teams will compete in a double-elimination Championship Bracket. The 12 teams consist of the 8 Group Winners who qualified directly and the 4 teams that advanced from the Qualifiers (the top 2 teams from each Qualifier group).

The Championship Bracket will use a standard double-elimination structure: a team must lose twice to be eliminated.

There will be a bracket reset in the Grand Final. The Grand Final is a Best-of-7 (BO7) series. Because the Upper Bracket finalist enters undefeated while the Lower Bracket finalist enters with one loss, a Lower Bracket win in the first series levels both teams at one loss each. A bracket reset means a second BO7 series is then played to decide the champion. This keeps the double-elimination rule fair: the Upper Bracket team must also lose twice to be eliminated.

7. Championship Match Formats

Match formats increase in length as the Championship Bracket progresses, reflecting the rising stakes of each round.

Stage	Match Format
Opening Rounds (leading up to Quarterfinals)	**Best-of-3 (BO3)**
Upper Bracket & Lower Bracket Quarterfinals	**Best-of-5 (BO5)**
Upper Bracket & Lower Bracket Semifinals	**Best-of-5 (BO5)**
Bracket Finals & Grand Final	**Best-of-7 (BO7)**

BO3 → BO5 → BO7

The Grand Final is a Best-of-7 (BO7) series, with a bracket reset if the Lower Bracket team wins the first series.

8. Seeding & Draw Structure

Initial Group Stage Seeding

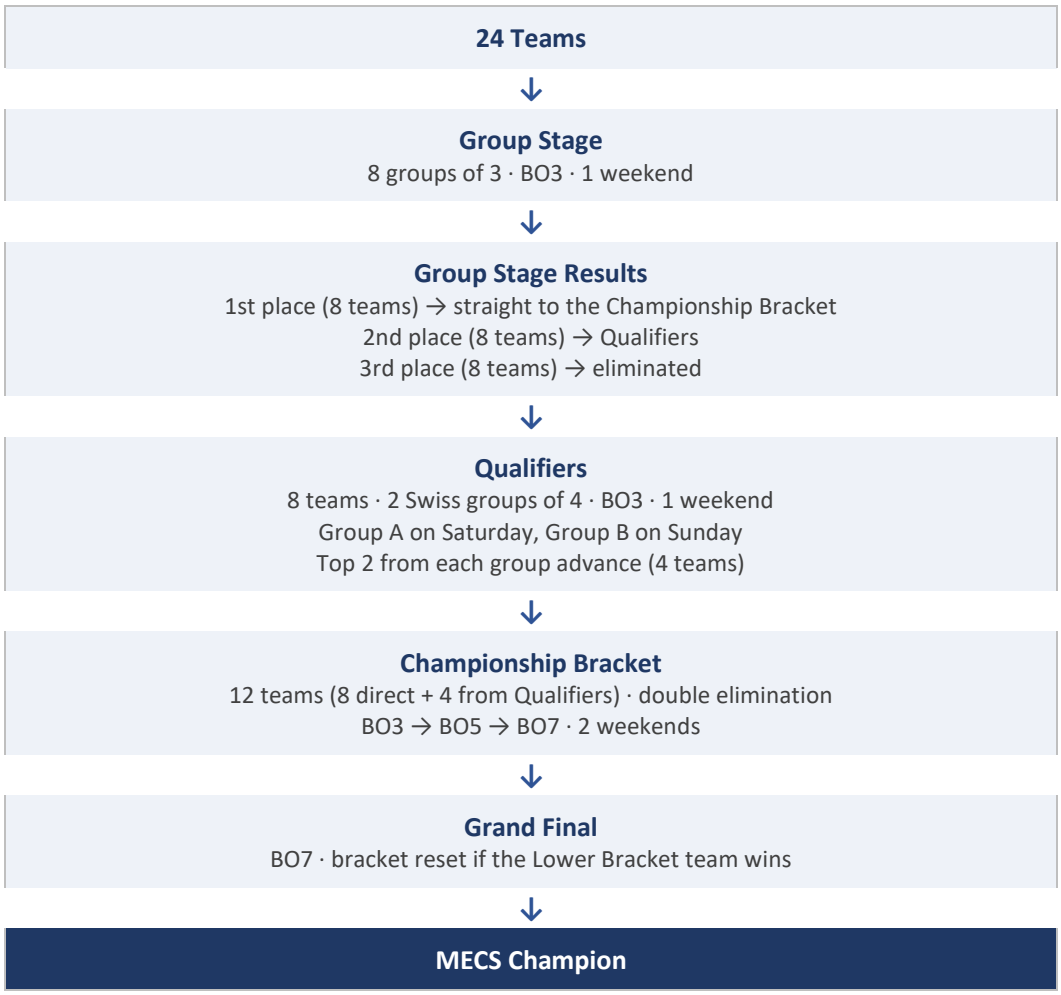

For the initial 24-team Group Stage:

- Teams will be evaluated and seeded according to MECS's official competitive seeding process.
- The 24 teams will be divided into three seeding pots of eight teams.
- Each group will receive one team from each seeding pot.
- The purpose of the pot system is to create balanced and competitive groups while maintaining a fair draw.
- The exact internal criteria used by Mathatised Esports to determine seeding remain at the discretion of the tournament administration.

Subsequent Stage Seeding

For later stages, Qualifiers and Championship Bracket positions will be determined according to MECS's standard seeding process.

9. Tournament Progression Summary

At the conclusion of the Group Stage, the team finishing 3rd in its group is eliminated and does not advance to the Qualifiers or the Championship Bracket.

10. Full Timeline Summary

Phase	Duration	Structure
Registration	1 week (pre-competition)	Team registration and verification, held ahead of the competition period
Group Stage	1 weekend	8 groups of 3; Groups A–D Saturday, Groups E–H Sunday, BO3
Qualifiers	1 weekend	8 teams in 2 Swiss-format groups of 4; Group A Saturday, Group B Sunday, BO3
Championship Bracket — Part 1	1 weekend	Opening rounds and progression toward Quarterfinals
Championship Bracket — Part 2	1 weekend	Quarterfinals, Semifinals, Finals and Grand Final
Champion	End of Competition	MECS Champion crowned

1 Weekend Group Stage → 1 Weekend Qualifiers → 2 Weekends Championship Bracket = 4 Weekends

11. Administrative Notice

Tournament Administration Notice

The schedule, match structure, or tournament timeline outlined in this document represents the intended MECS competition format. However, the MECS Tournament Administration reserves the right to make reasonable adjustments when necessary due to scheduling requirements, operational circumstances, technical issues, unforeseen events, competitive integrity concerns, or other circumstances that may affect the successful operation of the competition. Any significant changes will be communicated to participating teams as soon as reasonably possible.
