1. Tournament Overview

The Mathatised Esports Championship Series (MECS) is a competitive esports competition operated by Mathatised Esports. MECS is designed to provide players with a professional platform to compete, demonstrate their ability, gain recognition, and compete alongside or against high-level players.

The tournament will feature 32 teams and will ultimately determine one MECS Champion.

Tournament Progression

All official match days will take place on Saturdays and Sundays.

2. Overall Timeline

The MECS competition period is structured across four consecutive phases, presented below.

Phase 1 — Registration

Duration: 1 week

Registration will remain open for one week. During this period, eligible teams may register for MECS. Once registration closes, teams will be reviewed and confirmed before the group-stage draw and seeding process. To be eligible, all players must hold a competitive rank of Platinum or above.

3. Group Stage

Duration: 2 weeks

The 32 participating teams will be divided into 8 groups of 4 teams:

- Group A
- Group B
- Group C
- Group D
- Group E
- Group F
- Group G
- Group H

Each group will operate as a single round-robin. Every team plays each other team in its group once. All group-stage series will be Best-of-3 (BO3).

Group Stage — Week 1

Saturday

- Group A matches
- Group B matches

Sunday

- Group C matches
- Group D matches

Group Stage — Week 2

Saturday

- Group E matches
- Group F matches

Sunday

- Group G matches
- Group H matches

All group-stage matches are BO3.

4. Group Stage Qualification & Elimination

At the conclusion of the Group Stage, each group will have a ranking from 1st through 4th. The results of each group determine the tournament's next stage.

1st Place — Direct Qualification

The team finishing 1st in each group will qualify directly for the 16-team Championship Bracket. This produces 8 Group Winners, who are directly qualified for the Championship Bracket and will skip the qualification round entirely, proceeding straight to the final double-elimination stage.

2nd & 3rd Place — Qualification Round

The teams finishing 2nd and 3rd in each group will advance to the Two-Legged Qualification Round. This produces 16 teams entering the qualification round, from which 8 teams will advance, competing for the remaining eight places in the 16-team Championship Bracket.

4th Place — Elimination

The team finishing 4th in each group will be eliminated from MECS. The 8 fourth-place teams will not advance to the qualification round or the Championship Bracket.

5. Two-Legged Qualification Round

Duration: 1 week

The Qualification Round will take place across one weekend. The 16 teams advancing from the Group Stage will be paired into 8 two-legged matchups.

This qualification stage is not a BO2, BO5, or BO10 series. Instead, each two-legged matchup consists of 10 individual matches in total, played across two legs. Every team must play all 10 matches: 5 matches in the First Leg and 5 matches in the Second Leg.

First Leg — Saturday

Each of the 8 matchups will consist of 5 individual matches. Every team must play all five matches.

Second Leg — Sunday

Each of the 8 matchups will consist of another 5 individual matches. Every team must play all five matches.

Each team therefore plays 5 matches on Saturday and 5 matches on Sunday, for 10 matches total across the two-legged matchup.

Aggregate Result

The winner of each two-legged matchup is determined by the combined results of the five Saturday matches and the five Sunday matches, taken together as a single aggregate result across all 10 matches. The team with the better overall match record after all 10 matches will advance.

For example, if Team A wins 6 of the 10 matches and Team B wins 4, Team A advances.

If the 10-match aggregate ends in a tie — for example, Team A and Team B each winning 5 matches — the next determining factor will be total goals scored across all 10 matches. The team that has scored the most total goals across the ten matches will advance.

Qualification Round Outcome

- 8 winners advance to the Championship Bracket
- 8 losers are eliminated

6. Championship Bracket

Duration: 2 weeks

Following the Group Stage and the Two-Legged Qualification Round, the final 16 teams will compete in a double-elimination Championship Bracket. The 16 teams consist of the 8 Group Winners who qualified directly and the 8 Qualification Round winners.

The Championship Bracket will use a standard double-elimination structure: a team must lose twice to be eliminated.

There will be no bracket reset in the Grand Final. The Grand Final will be a single Best-of-7 (BO7) series.

7. Championship Match Formats

Match formats increase in length as the Championship Bracket progresses, reflecting the rising stakes of each round.

Stage	Match Format
Opening Rounds (leading up to Quarterfinals)	Best-of-3 (BO3)
Upper Bracket & Lower Bracket Quarterfinals	Best-of-5 (BO5)
Upper Bracket & Lower Bracket Semifinals	Best-of-5 (BO5)
Bracket Finals & Grand Final	Best-of-7 (BO7)

BO3 → BO5 → BO7

The Grand Final is a single Best-of-7 (BO7) series, with no bracket reset.

8. Seeding & Draw Structure

Initial Group Stage Seeding

For the initial 32-team Group Stage:

- Teams will be evaluated and seeded according to MECS's official competitive seeding process.
- The 32 teams will be divided into four seeding pots of eight teams.
- Each group will receive one team from each seeding pot.
- The purpose of the pot system is to create balanced and competitive groups while maintaining a fair draw.
- The exact internal criteria used by Mathatised Esports to determine seeding remain at the discretion of the tournament administration.

Subsequent Stage Seeding

For later stages, Qualification Round and Championship Bracket positions will be determined according to MECS's standard seeding process.

9. Tournament Progression Summary

At every stage of the Group Stage, the team finishing 4th in its group is eliminated and does not advance to the Qualification Round or the Championship Bracket.

10. Full Timeline Summary

Phase	Duration	Structure
Registration	1 week	Team registration and verification
Group Stage — Week 1	Weekend	Groups A–D, BO3
Group Stage — Week 2	Weekend	Groups E–H, BO3
Two-Legged Qualification	1 week	16 teams; 5 matches Saturday + 5 matches Sunday
Championship Bracket — Week 1	Weekend	Opening rounds and progression toward Quarterfinals
Championship Bracket — Week 2	Weekend	Quarterfinals, Semifinals, Finals and Grand Final
Champion	End of Competition	MECS Champion crowned

1 Week Registration → 2 Weeks Group Stage → 1 Week Qualification → 2 Weeks Championship Bracket

11. Administrative Notice

Tournament Administration Notice

The schedule, match structure, or tournament timeline outlined in this document represents the intended MECS competition format. However, the MECS Tournament Administration reserves the right to make reasonable adjustments when necessary due to scheduling requirements, operational circumstances, technical issues, unforeseen events, competitive integrity concerns, or other circumstances that may affect the successful operation of the competition. Any significant changes will be communicated to participating teams as soon as reasonably possible.
